TECHNICAL

Skills	: Reactjs, JavaScript, TypeScript, SQL, HTML, CSS, Tailwind, ColdFusion.
Basic knowledge	: Node, Express, Angular

PROJECT

1. Manufacturing Management Suite (MMS):

- Developing the front-end side for MMS.
- The custom percentage increased by 14% with the interactive UI and implementation I provided.
- Implemented UI based on client requirements, delivering multiple POCs to showcase various ideas.
- Tech stack: **Reactjs, SQL**

2. RISE Idaho STARS:

- Developed e-commerce platform with admin panel for product control, cart, and user management.
- Implemented advanced features: product categorization, search, and dynamic sorting.
- Tech stack: **HTML, CSS, Bootstrap, React.**

3. Personal Projects:

- **Cafeteria Management:** Recommendation Engine designed for a cafeteria to enhance food choices for customers through personalized recommendations.
- **Netflix Clone:** Netflix clone using TMDB Api with authentication using firebase.
- **Password Manager:** Securely storing passwords under lock and key. Passwords are encrypted using a password as a key of Managing App.

EDUCATION

Course Name & Board	Duration	College/School	Percentage/CGPA
